

Kindergarten Summer Reading

Losing yourself in a good story is such an enjoyable way to spend time visiting faraway places, meeting new people, and going on exciting adventures. Over the summer we encourage you to read or for someone to read to you. You have a reading log to fill in to see how much time you spend reading this summer. Parents will note the book title and number of minutes and enter it on your log.

There will be a friendly competition between kindergarten, first, and second grades to see which class spent the most time reading over the summer. The tutors will also log in our reading time!

Which class will log the most minutes? Don't let your class down,

READ!
