

Rising 5th Grade Summer Math

Your child has learned Multiplication and Division Facts 1-12 this year. Do Not let that skill regress. Students are expected to have mastered these facts on Day 1 of 5th grade. Flashcards have been provided to help with this. 2 minutes of Flashcard work 3-4 days a week will keep up this skill.

Fifth Graders,

Please return your completed math packet to me on Orientation Night, August 31, 2021. It will be counted as your first homework grade of the year.
